Stimulating Scalp and Strand Mist

Scalp and Hair Mist • Lightweight • 4oz

You feel the tingle right away.

A lightweight, **minty-fresh mist** for the scalp and strands. Infused with Tea Tree, Peppermint, Rosemary, Aloe Vera, and Biotin, it hydrates, refreshes, helps soothe itching and reduce odor without buildup. This leave-in treatment supports healthy scalp maintenance on natural and chemically treated hair.

WHY WE LOVE IT

- Refreshes the scalp without buildup
- Helps soothe an itchy scalp
- Helps reduce scalp odor
- Supports healthy scalp maintenance
- Provides lightweight moisture for braids, locs, twists, wigs, and weaves
- Helps maintain scalp comfort during long-term protective styles
- Can be incorporated into your hair growth and edge care routines

Pro tip: For more precise application, spray the mist onto a cotton swab and dab it directly along your scalp. This is especially helpful when wearing braids, twists, or other protective styles.

Important: This is a leave-in treatment with no rinsing needed for everyday use. Use as often as you like. In a steaming treatment for a dry, flaky, or itchy scalp, it gets rinsed out along with your conditioner.

HOW TO PAIR IT

- **With the Cream-Oil**
  For moisture and protection, apply the Nourishing Cream-Oil to your hair while using the Scalp Mist directly on your scalp.
- **With Leave-In + Flourish Styling Products**
  After washing, mist your scalp before applying your leave-in and styling products.
- **With Conditioner**
  For a dry, flaky, or itchy scalp, mist after shampooing. Apply conditioner or deep conditioner to your hair, steam, then rinse everything out together.

Solo Use: Use whenever your scalp needs a refresh, including after workouts, between wash days, during protective styles, or as part of your daily scalp, edge care, or hair growth routine.

Styles to Try

What you can use your Scalp and Strand Mist for.

STYLES AND USES

After shampooing
Spray your scalp before you start styling.

Before a workout
Spray your scalp first.

After a workout
Refreshes your scalp without buildup.

Protective styles
Spray your scalp every day if you want to.

Steam treatments
Spray, sit under the steamer and give your scalp a good massage.

Dandruff
Spray, scrub your scalp to lift it, then do your wash.

Dry, flaky or itchy scalp
Helps soothe itching.

Between wash days
Whenever your scalp needs a refresh.

Braids, locs, twists, wigs and weaves
Lightweight moisture. Dab it on with a cotton swab.

Scalp odor
Helps reduce it.

Edge care and hair growth routines

Natural and chemically treated hair
Supports healthy scalp maintenance.

Stop itch or prevent it
It refreshes your scalp, so it works for prevention and for maintenance.

Rinse out or leave in
After steaming and massaging, rinse it out or leave it in.

What is in it
Tea Tree, Peppermint, Rosemary, Aloe Vera and Biotin.

How it feels
Lightweight and minty fresh. You feel the tingle right away.

In Your Hands

How to use your Scalp and Strand Mist, from the bottle to your scalp.

THE BASICS
